CHAPTER 15-01
UTILITY ESTABLISHED

Section	
15-0101	Water and Sewer Utility Created
15-0102	Scope of Utility
15-0103	Service Charges - Use Of
15-0104	Policy on Improvements - Extensions
15-0105	Utility Fund - Separate Accounts

15-0101 Water and Sewer Utility Created. The waterworks and sewerage facilities now owned by this city or hereafter acquired, were and are hereby declared to be and to constitute a public utility of the city, to be held, operated, maintained, improved, extended and administered as a single undertaking to be known as the "water and sewer utility". The properties of said utility shall include all plants, systems, works, rights in land, water rights, contract rights, franchises, dams, reservoirs, sewage disposal plants, intercepting sewer, trunk connections, sewer and water mains, filtration works, pumping stations, and all parts and appurtenances of the foregoing which are used or useful in connection with the obtaining of a water supply and the conservation, treatment and disposal of water for public and private uses and/or useful in connection with the collection, treatment and disposal of sewage, waste and storm waters.

15-0102 Scope of Utility. The properties of said utility and all future improvements, extensions and enlargements thereof, together with all cash and other assets held in the City's Water and Sewer Utility Fund and all moneys to be derived thereafter from the services, facilities, products and by-products of said utility, shall be and are hereby appropriated and dedicated to the purpose of insuring the public health, safety and welfare by furnishing and making available water and sewerage service to the City and its inhabitants and industries. Said utility shall at all times be under the management and control of the governing body of the city and shall by it be operated and maintained in such manner as to provide its service with maximum efficiency and at the minimum cost which is compatible with the plan of operation herein described.

15-0103 Service Charges - Use Of. Said utility shall at all times be so operated and maintained, and rates and charges for its services, facilities, products and by-products shall be such, as to make the utility self-supporting and self-perpetuating. Such charges from time to time imposed and collected shall be made and kept adequate to pay as incurred all costs of operation and maintenance of said utility and

to establish and maintain reasonable operating reserves; to produce net revenues which shall be sufficient at all times to pay promptly the principal and interest due on all obligations of the City incurred for the improvement, extension and enlargement of said utility, to the extent that such obligations are according to their terms payable from said net revenues, and to establish and maintain adequate reserves for the security of said obligations; and to produce surplus net revenues, over and above current principal, interest and reserve requirements, in amounts sufficient to provide reasonable allowances for depreciation and replacement of the utility plus a reasonable return on the City's capital investment therein which surplus net revenues, when actually on hand, and to the extent that they are not required as a reserve for depreciation and replacement, may from time to time be appropriated by the governing board to pay or contribute to the cost of any other city functions, subject to the limitations now or hereafter prescribed by law.

The foregoing appropriations shall not, however, be deemed or construed to preclude the City from defraying any part or all of the expense of any improvement enlargement or extension of the water and sewer utility by the levy of special assessments or taxes or the issuance of general obligation bonds, whenever and to the extent that such action is authorized in the manner provided by law and is deemed fair and equitable by the governing body.

15-0104 Policy on Improvements-- Extensions. It is hereby declared to be the policy of the city, subject to such modifications as shall be deemed by the governing body to be required by special circumstances in individual cases, and subject to such modifications as may hereafter be made by ordinance amendatory hereof or supplemental hereto, that the cost of capital improvements, enlargements and extensions of said utility shall be paid in the following manner:

1. Where water mains not exceeding six inches or sanitary sewer mains not exceeding eight inches in diameter are installed adjacent to residential properties, and where water mains not exceeding eight inches or sewer mains not exceeding ten inches in diameter are installed adjacent to commercial properties, the total cost thereof shall be assessed against the properties abutting on such improvements, in sums proportionate to and not exceeding the total benefits determined to be derived therefrom by the respective properties, Water and sewer mains of the dimensions above described are referred to herein as "lateral" mains, and other mains are referred to as "trunk" mains.
2. Where a trunk main is installed, the governing body upon advice of the City Engineer shall estimate the probable cost of construction of a lateral main at the same time and place, and such estimated cost shall be assessed against the properties abutting on such main and in the manner above provided.
3. Twenty percent of the cost of any sanitary sewer in excess of the estimated cost of a lateral sewer at the same time and place shall be assessed against all properties determined by the governing body to require the immediate construction of such main as

a trunk sewer, including properties abutting thereon and properties served or capable of being served by lateral sewers connected thereto, in amounts proportionate to and not exceeding the benefits determined to be derived by said respective properties from such trunk sewer.

4. The total cost of storm sewers shall be assessed against properties within the area determined to be benefited thereby, in amounts proportionate to and not exceeding the benefits determined to be derived therefrom by the respective properties.
5. Where a portion of the benefits of any of the foregoing improvements is deemed to accrue primarily to the city at large, a portion not exceeding 20 percent of the cost thereof as determined by the governing body with the concurrence of the Board of Budget Review, may be paid by the levy of ad valorem taxes upon all property within the City over the same period as the levies of assessments for such improvements, or any portion or all of such cost may be paid out of current funds duly provided in the budget, or from the proceeds of general obligation bonds duly authorized by the electors.
6. Such portion of the cost of any improvement, extension or addition to the utility as is not paid by special assessments and taxes levied and actually collected in respect thereof shall be paid from the net revenues of the utility.
7. Where due to any error or omission or to any special circumstances a special assessment is not levied against any property benefited by an improvement at the time of the construction thereof in accordance with the program described in this section, the city reserves the right to levy a supplemental special assessment upon such property or to impose and collect a special charge for the connection of such property with the utility system in such amount as shall be required to pay its just share of the assessable cost of such improvement.

15.0105 Utility Fund - Separate Accounts. All moneys received by the city in respect of the services, facilities, products and by-products furnished and made available by said utility, except collections of special assessments and taxes appropriated to improvement district funds and moneys borrowed for capital improvements, and all money, receipts and returns received from any investments of such earnings, shall be paid into the treasury of the city and kept in a special fund which shall be permanently maintained on the books of the city, separate and distinct from other funds, and designated as the Water and Sewer Utility Fund, in the records of which fund all receipts and disbursements of money on account of or in connection with the utility shall be entered and reflected; but the moneys from time to time on hand therein shall always constitute public municipal funds and shall be deposited and their safekeeping secured like other city funds. Separate accounts within the Water and Sewer Utility Fund shall be permanently maintained for the purpose of segregating the revenues required to meet the several expenses

and obligations of the utility, as provided below, and such revenues shall be administered and accounted for as follows:

1. Operation and Maintenance Account. There shall be credited at least quarterly to the Operation and Maintenance Account of said fund, as a first lien and charge on the gross revenues of the utility such sum as shall be needed, over and above any credit balance then held therein, to pay all claims due which by accepted accounting practices constitute normal, reasonable and current expenses of operation and maintenance of the utility, and to pay such expenses estimated to accrue for a period of approximately three months and to maintain a reasonable reserve for contingencies. Moneys in said account shall be used only to pay expenses of the foregoing type, and not for repairs or replacements or for capital improvements properly chargeable to replacement and depreciation reserves or surplus funds.
2. Replacement and Depreciation Account. Finally, there shall be maintained a Replacement and Depreciation Account, into which there shall be credited and paid as received, except as otherwise stated below, all net revenues in excess of the current requirements of the other accounts above described. In said account there shall be maintained such balances as the governing body shall from time to time determine to constitute an adequate reserve for depreciation and replacement of the utility, which reserve may be used to redeem prior to maturity obligations payable from the net revenues as and when the same become pre-payable according to their terms, or to replace worn out or obsolete properties of the utility, or to make extensions, enlargements or improvements thereto. Any moneys in said account determined to be surplus to the immediate requirements therefor may be invested or may be transferred to other city funds in the discretion of the Board, in the manner and subject to the limitations set forth in Section 40-33-12 of the North Dakota Century Code; and any acts amendatory thereof or supplemental thereto.
3. Garbage Landfill Reserve Account. All funds received quarterly from the "Garbage Landfill Reserve" charge provided for in Section 10-0305(e) shall be credited to this account and shall be expended only for the purchase and/or lease of disposal areas or for the construction of a landfill, trench, or excavation in connection with a disposal area used by the city for disposition of its garbage and refuse.
4. Garbage Funds. All fees received for the collection of garbage and refuse as provided for in Section 10-0305 (a)(b)(c)(d) shall be credited to this account and shall be expended only for such purposes as are provided for in Section 10-0306.
5. Moneys on Hand. The moneys on hand in any of the accounts of the Water and Sewer Utility Fund shall at all times be available and shall be used to the extent necessary to restore any deficiency in the funds on hand in any of the preceding accounts, in the order listed above, for the fulfillment of the requirements of such preceding accounts as herein defined.

15-0216	Rates and Charges
15-0217	Rates and Charges - Liability For

15-0201 Water System. All land, buildings, machinery, equipment, tools and apparatus, water mains, hydrants, service connections and all other property used for the purpose of furnishing a water supply to this city, and the inhabitants thereof, now owned or to be owned by this city, whether acquired by the issue of general obligation bonds, special assessment warrants or other obligations of this city, shall constitute and be known as the waterworks system.

15-0202 Water Superintendent. A water superintendent shall be appointed by the governing board. If he is a part time employee, and if he is also a city employee in some other capacity, only his services respecting the water system shall be an operating charge of the system. It shall be the duty of the water superintendent to exercise control and management of the operation of the waterworks system. He shall have power and authority to employ, subject to the approval of the governing body, all such engineers, filter plant operators, meter readers, laborers and other employees, as may be necessary to the operation of the waterworks system. All such employees shall be subject to his orders and directions, and he shall be responsible for their acts. He shall have power and authority to purchase such materials, supplies, and repairs for the waterworks system, with the approval of the governing board of the city, as shall be reasonably necessary for the operation of such system. He shall keep such books and records of matters pertaining to the operation of the system, as are necessary to show the operation and condition thereof. He shall at all times be subject to the supervision and direction of the governing board. He shall perform such other duties and have such other powers and authority as are hereinafter provided for.

AMENDED ORDINANCE 84-4

Alderman Feist moved and Alderman Diede seconded a motion that Section 15-0203 of the Revised Ordinances of the City of Hebron, as amended, be given its second reading and final approval.

15-0203 Water-Service - Application For. Any party desiring water service from said utility for premises not heretofore connected with the system shall apply for a connection on a form provided by the municipality. Such application shall state an exact description of the premises to be served, and, the use, both general and special, to which the water is to be put, and the estimated amount of water to be used for a quarter-annual period. Such application shall be filed with the City Auditor, and the applicant shall thereupon pay to the City Auditor, as and for a connection charge, the sum of \$40.00, or in lieu thereof shall deliver a written agreement to pay the sum of \$40.00, said agreed sum to be payable without interest in equal quarterly installments, the first to be due and payable immediately upon delivery of such agreement and the succeeding installments one with each of the quarterly water bills next thereafter issued. Such payment or written agreement shall be returned to the applicant if the application is refused. Said connection charge shall be in full payment of the cost of installing the service pipe or pipes from the municipality's main opposite the premises to the owner's property line (unless the cost thereof has been assessed against the property) and for water curb cocks, installation of water meters, and supervision of the customer's connection with the system.

Any party desiring water service from said utility for premises not heretofore connected with the system or previously assessed for the improvement in Water Improvement District 1984-1, shall pay in addition to the connection charge, the sum of \$85.77, which sum is to be credited to the Water Improvement District 1984-1 Fund. Such additional charge shall be applicable only to connections made prior to January 1, 1988.

Upon roll call, all voted "Aye," none voted "Nay" and the amended ordinance was given its second reading and final approval.

First Reading - November 5, 1984

Second Reading - November 13, 1984

~~15-0203 Water Service - Application For. Any party desiring water service from said utility for premises not theretofore connected with the system shall apply for a connection on a form provided by the municipality. Such application shall state an exact description of the premises to be served, and, the used, both general and special, to which the water is to be put, and the estimated amount of water to be used for a quarter-annual period. Such application shall be filed with the city auditor, and the applicant shall thereupon pay to the city auditor, as and for a connection charge, the sum of \$ 40.00, or in lieu thereof shall deliver a written agreement to pay the sum of \$ 40.00, said agreed sum to be payable without interest in equal quarterly installments, the first to be due and payable immediately upon delivery of such agreement and the succeeding installments one with each of the quarterly water bills next thereafter issued. Such payment or written agreement shall be returned to the applicant if the application is refused. Said connection charge shall be in full payment of the cost of installing the service pipe or pipes from the municipality's main opposite the premises to the owner's property line (unless the cost thereof has been assessed against the property) and for water curb cocks, installation of water meters, and supervision of the customer's connection with the system.~~

15-024 Water Service - Construction of - Maintenance of By Owner. The cost of original installation of all plumbing between the curb and any service devises maintained by the consumer and all extensions made to such plumbing, as well as all repairs, shall be borne entirely by the consumer, although such plumbing and services as well as the meters shall at all reasonable times be subject to inspection by duly authorized representatives of the municipality. Any repairs found to be necessary by such representatives shall be made promptly, or the municipality will discontinue service.

All services shall be constructed by licensed plumbers at the owner's expense, and each service shall be maintained by the owner. Services heretofore acquired by the issuance of special assessment warrants and assessed against the property, or which may be acquired in the future in like manner, shall likewise be maintained by the owner. Services means the service line running from the point of corporation with city main to owner's premises.

15-0205 Water Service - To Property Not Previously Assessed. No permit shall be issued for the making of any connection between any water or sewer lines and any property which has not previously been benefited by existing water and/or sewer lines, or whenever the owners of such property have not been assessed for such water and sewer facilities, unless and until such person shall have paid or made a written agreement with the city to pay in quarterly installments within a maximum of five years an amount of money as may be therefore determined by the governing body. Such amount shall be based upon the area served and benefit resulting to the property involved. Within thirty days from the date of receipt of such application, the governing body shall determine the amount of money required to be paid before such connection shall be made and

It was moved by Councilperson Eggert and seconded by Councilperson Fehr, that Section 15-0211 of the Revised Ordinances of the City of Hebron be amended to read as follows:

15-0211 Water Services - There shall be and is hereby established a water meter deposit of \$75.00 payable with the application for water services. Meter deposit fees shall be waived for any resident who has not been in arrears to the City of Hebron during the two year period immediately prior to the date of application and for non-residents that can provide an affidavit to the same effect from the City Auditor of the City of their previous residence.

Whenever the premises are sold, or water service thereto is discontinued at the request of the owner, the vendor or owner shall upon demand be entitled to a refund of the deposit with interest at five (5%) per cent per annum from date of deposit, provided the meter is in satisfactory operating condition and that all utility charges owed to the City have been paid. In addition any applicant shall upon demand be entitled to a refund of the deposit with interest at five (5%) per cent per annum from date of deposit, provided that all City utility charges have been timely paid in the two years immediately preceding the date of application for refund and further provided the meter is in satisfactory operating condition and that all current charges to the City have been paid.

All voted Aye, none voted Nay and the first reading of the amended ordinance was approved.

Second Reading: October 7, 1991.

shall advise the applicant property owner of such determination. All such moneys paid and received pursuant to the provisions of this section shall be placed in the water and sewer utility fund and shall be expended in accordance with the purposes of such fund.

15-0206 Water Service - To Property With Delinquent Assessments. No permit shall be issued for the making of any connection between any water main of the city and any property on which any special water main assessment taxes are delinquent.

15-0207 Water Service - Who May Tap. No person other than an employee of the water department under the supervision of the water superintendent, shall make any tap or connection to a main. The tapping of any mains of said system, and the insertion of the corporation cock in said main shall be done under the supervision of the water superintendent.

15-0208 Water Service - Meter Required. It shall be unlawful for any person to use water from any premises without the consent of the owner, or to use water from the municipal water system except when drawn through a meter installed by the municipality. No person except an authorized representative of the water superintendent shall turn on or off or tamper with any curb cock.

15-0209 Water Service - Branch Service - When. Unless special permission is granted by the water superintendent, each premise shall have a separate and distinct water service connection, and where permission is granted for branch service systems each branch system must have its own separate meter and separate curb cock.

15-0210 Water Service - Meter Required - Location, Seals. Meters shall be firmly and substantially set in a workmanlike manner in a convenient and readily accessible location for reading and inspection. No tap or withdrawal of water by the consumer for any purpose shall be permitted ahead of the city meter, or between the meter and the main line. The consumer shall not, after original installation of a meter, make any alterations or additions which will interfere with the repair, maintenance, reading, or operation of the meter.

Meters shall at all times be sealed and such seals shall not be broken. Meters shall be removed only by authorized employees of the waterworks department.

Revised 10/07/1991
~~15-0211 Water Service - Meter Deposits. There shall be and is hereby established a water meter deposit of \$ 15.00, payable with the application for water service. Whenever the premises are sold, or water service thereto is discontinued at the request of the owner, the vendor or owner shall upon demand made by him be entitled to a refund of the deposit provided the meter is in satisfactory operating condition and no charges for water services to the premises are then delinquent.~~

15-0212 Water Service - Services - Installation Of. In installing water service, all taps shall be driven, street excavation made, corporation cocks inserted, pipes installed from main to curb, and the curb cock installed in an iron box to which the service is to be connected, by the municipality's employees only. All service pipes connected with the water system shall be laid 8 feet below the established grades or as low as the street mains. All sewer service pipes shall be of a material approved by the water superintendent.

15-0213 Curb Cocks. There shall be a curb cock in every service line attached to the water mains, the same to be placed as near as possible to the curb if on a street, or within one foot of the alley line if the main is located in the alley. Curb cocks shall be supplied with strong and suitable "T" handles and shall be enclosed in a substantial iron case covered with a tight fitting iron lid with the letter "W" cast upon it. There shall be one or more stops and waste cocks attached to every supply pipe at some point between the curb cock and the meter so that the water can be shut off and the meter and the house plumbing entirely drained. There shall be another such stop and waste cock in the pipe on the house side of the meter.

15-0214 Check Valves. Check valves are hereby required on all water connections to steam boilers or any other connection deemed by the water superintendent to require one. Safety and release valves shall be placed on all boilers or other steam apparatus connected with the water system where the steam pressure may be raised in excess of fifty pounds per square inch.

15-0215 Regulations Governing Service. The following rules and regulations shall be considered a part of the contract with every person who takes water supplied by the city through the city waterworks system and every such person who takes water shall be considered as having expressed his agreement to be bound thereby.

1. Shutting Off Water: Who Authorized. No person except an authorized employee of the water department shall shut off or turn on the water at the curb cock to any premises without first obtaining permission from the water department.
2. City Reserves Right to Shut Off Water, Notice. In the case of making repairs or constructing new work, the city reserves the right to shut off the water at once and keep the same shut off as long as may be necessary to accomplish such purposes. The city shall in such case make such effort as is practicable to give previous notice to consumers.
3. Non-liability of City for Deficient Supply or Quality of Water. It is expressly provided that the city shall in no event be or become liable to any consumer of water for a deficiency in the supply of water or the quality thereof, whether by shutting off the same to make repairs or to construct new work or for any other cause whatsoever.
4. Shutting Off Water: Charge For. The water department shall make a charge of one dollar (\$1.00) each for shutting off or turning on services.

5. Entrance and Access to Premises By Waterworks Employees. Authorized employees of the water department shall have free access to any premises supplied with water, at proper times, to inspect and ascertain the condition of the meters and fixtures, or for reading meters, and no owner or occupant shall refuse such employees such access. The water department shall have the right to enter any premises and remove the meter for the purpose of examination and test after first notifying the owner or occupant, and to shut off the water to premises where free access is prevented.

6. Fire Hydrants, Who May Open. No person except city employees in the performance of their official duties shall open or cause to be opened any fire hydrant without the written permission of the water superintendent.

Revised 15-0216 Rates and Charges. There shall be and there is hereby established rates and charges for the use of and for the service supplied by the municipal water system for the city, based upon the meter readings of the amount of water consumed as follows:

First 5000 gal. or lesser amount per quarter	\$5.00 per quarter (Min. quarterly bill)
Next 5000 gal.	\$.65 per 1000 gal.
Next 5000 gal.	\$.50 per 1000 gal.
All over 15,000 gal. per quarter	\$.30 per 1000 gal.

Bills for the rates and charges as herein established by the city shall be sent and shall be due when billed. All bills shall be payable at the office of the City Treasurer of the city.

If any charge for the services of the system shall not be paid by the 20th day of the month in which it shall be come due and payable, a delayed payment charge of \$.50 shall be added thereto and collected therewith. If any bills for the service of the water system shall remain unpaid after 30 days following the rendition of the bill therefor, the water supply for the lot, parcel of land, or premise affected shall be cut off and shall not be turned on again except on payment in full of the delinquent charges therefor in addition to the payment of a charge of \$5.00. #25.00

15-0217 Rates and Charges - Liability For. Owners of premises where water is supplied shall notify the water department in case any tenant moves from said premises, prior to such moving. In case said tenant moves from said premises to other premises in the city, and is there supplied with water, he shall be liable for the water used at his former residence up to the time of moving, and the water department shall take such measures to enforce the collection of such water bill, as are provided for in the case of non-payment of other water bills. In case said tenant moves away from said city or moves to some place within said city where he is not directly supplied by said water department with water and refuses or neglects to pay said bills within fifteen

(15) days after notice thereof, then and in that event the owner of the property for which said bill was rendered shall be liable for said bill, and the water department shall take such measures to enforce collection of such water bill, as are provided for in the case of non-payment of other water bills.

The owner or owners of all real property in the city furnished water service or service line repairs shall be responsible for the payment of any and all such charges, regardless of who the occupant or tenant may be. On request of the owner or owners the Water Superintendent will bill the occupant or tenant for such charges, but if such charges are not paid when due by the occupant or tenant, the owner or owners shall be responsible for such charges and they shall be assessed to the property served. It shall be the duty of the city auditor to certify to the county auditor such unpaid water or service charges that are unpaid in the same manner and at the same time as other assessments are certified, and they shall be assessed and collected in the same manner.

CHAPTER 15-03 SEWER SERVICE

Section

- 15-0301 Application For
- 15-0302 Rates
- 15-0303 Charges
- 15-0304 Installation of Services

15-0301 Application For. Application for sewer service shall be filed with the City Auditor upon a form to be supplied by the City. The application shall state the name of the applicant and the premises to be served. All applications shall be accompanied by a fee of \$ 20.00, payable to the City for the connection charge.

15-0302 Rates. The sewer rates to be charged shall be fixed from time to time by resolution of the Governing Board, and City reserves the right to change the rates from time to time as it deems best.

15-0303 Charges. The Water Department is hereby authorized to add the sewer charges provided for herein to its charge for water services and waste collections and submit the same on a bill in connection with said water service bills. The Water Department shall be authorized to discontinue all utility services if the entire bill shall not be paid, including the bill for sewer charges. In all places where water service is provided the monthly charges set forth shall be added to and collected as a part of the water bill and collected by the Water Department of the city. Said sums shall be come delinquent upon the same dates of the water bill upon which the same is charged. If said service charge is not paid when due, the water service of said premises may be shut off in the same manner as provided for water.

In all places where water service is not provided the charge above set forth shall be paid to the Water Department of the City upon quarterly bills from said Water Department.

If the service charge so established is not paid when due said sum may be recovered by the City, in an action at law against the owner or occupants or both of the property so served and may also be assessed against the premises so served and collected and returned in the same manner as other county and municipal taxes are assessed, certified, and collected and returned.

15-0304 Installation of Services. All sewer tops, street excavations and replacement thereof and installation of lines from the city sewer mains to the property line shall be under the control of the City Engineer or other authorized person.
